

2024 Guidelines: Photographing / Filming

- (1) We enthusiastically encourage teams to photo/video their participation within the Solar Car Challenge. This offers great opportunities for encouraging sponsorship, and recruiting future team members. We applaud your efforts.
- (2) We ask photographers and film-makers to coordinate in advance their efforts through the Race Director and the Official Race Photographer.
- (3) Photographers/Videographers will get a special wrist band from our Special Assistant for Media Relations.
- (4) Teams are free to take pictures and videos during the race with several limitations.

Photographers/Videographers:

- (a) **can take pictures** of their own team at the race.
 - (b) **can take “general” pictures** of race teams taking part in the Solar Car Challenge. Example: it would be reasonable to photograph all the teams at the Race Start, or during the Official Race Photo.
 - (c) **can NOT** intentionally take pictures of specific teams or students without advance written permission from that person or team, and without notifying the Race Director. [“Privacy” and “Underage Student” Issues]
 - (d) **can NOT photo/video judges during Scrutineering.** Capturing photos or videos of judges during the scrutineering process could be construed as “pressuring” the judge. Only the Race’s Official Photographer can take photos during Scrutineering.
 - (e) **can NOT use a drone** for any purpose at the Solar Car Challenge.
- (5) Photographers/Videographers cannot hold out their work product as an official record of the Solar Car Challenge.
 - (6) Photographers/Videographers cannot sell photos/videos from the Race without written permission of the Race Director.
 - (7) Photographers/Videographers do not have permission to use the Official Registered Race Logo without the written permission of the Race Director.
 - (8) Team sponsors cannot promote a particular team taking part in the Solar Car Challenge unless they give significant reference to the Event. Sponsors cannot “hijack” the event for their own purposes.
 - (9) Violation of these terms will result in expulsion from the Solar Car Challenge.

I hereby agree to these terms, and will submit this document during Team Check-In.
